

BARLOWORLD

Lost-Time Injury Frequency Rate Approach

Preamble

Barloworld is an industrial processing, distribution, and services company with two primary areas of focus: Industrial Equipment & Services and Consumer Industries (food and ingredient solutions).

Our provision of Industrial Equipment and related services, offers earthmoving equipment, industrial services, and power systems, which enable the operation and maintenance of a large array of mining, construction, and power solutions for our customers, with whom we have built enduring relationships based on mutual trust. Through our Consumer Industries business, Ingrain, we provide large enterprises with the ingredients essential to the manufacturing of a range of products including food and beverages, paper, pharmaceuticals, building materials and adhesives, amongst others.

As a responsible corporate citizen, Barloworld appreciates the importance of providing a healthy and safe environment for its employees, customers and generally all visitors to its sites.

This approach aligns with the Barloworld Worldwide Code of Conduct, as reflected in its commitment below:

'WE PROTECT THE HEALTH AND SAFETY OF OTHERS AND OURSELVES

'...we strive to contribute toward a global environment in which all people can work safely and live healthy, productive lives, now and in the future. We actively promote health and safety with policies and practical programs that help individuals safeguard themselves and their colleagues. As employees, we put safety first by creating a work environment to protect the health and safety of others and ourselves. We actively promote safe practices throughout our value chain – from suppliers to end users. We are committed to providing our customers with products and services that are safe and reliable.'

This document provides the Barloworld approach to reporting Lost-Time Injury Frequency Rates (LTIFRs) at a group and divisional level.

Approach

In light of the diversity of the industries, geographies and legislative jurisdictions in which the group operates, each division has adopted Health and Safety reporting criteria (as detailed in **Annexure A** below) that are most appropriate for their respective operational environments.

Document Title	Barloworld LTIFR Approach	Version	2014/04

The Group LTIFR calculation is a consolidation of divisional inputs being the number of Lost-Time Injuries (LTIs) and total hours worked.

Each division records and reports in line with their respective approach, ensuring comparability and trend analysis. Divisional LTIFRs are disclosed in Barloworld's integrated reporting.

The formula for calculating the LTIFR is consistent across the group and comparable across prior reporting periods:

$$LTIFR = \frac{\text{No. of LTIs} \times 200\,000}{\text{Total hours worked}}$$

Annexure A

1. Categories of individuals that are included in the reported number of Lost-Time Injuries and total hours worked:

	SMD	BWE SNA	BWE UK	BWE VT	BWE Mongolia	BCO	Ingrain
a. Permanent employees	X	X	X	X	X	X	X
b. Contractors > 12 months	X	X	X	X	n/a	X	X
c. Contractors < 12 months	X	X	X	X	n/a	X	X
d. Service providers	n/a	n/a	n/a	n/a	n/a	n/a	X
e. Outsourced providers	n/a	X	n/a	n/a	n/a	n/a	X
f. Temporary employees	n/a	X	n/a	n/a	n/a	n/a	X

Legend:

X – Category of individual included in reported statistics for the operation

n/a – These categories of individuals are not applicable for the respective operations and are therefore excluded from reported statistics
